SKILLS AND TECHNOLOGIES

- Front-end : HTML, CSS, JavaScript, ReactJS
- Back-end : NodeJS (ExpressJS), Typescript, Rest-API, GraphQL.
- Databases : PostgreSQL, MongoDB, Sequelize.
- Version Control: Git-Lab, GitHub, etc.
- Software Development Life Cycle: Jira, Waterfall Model, Agile Model.
- Personal Skills: Flexible and Adaptable, Strong Decision-making Abilities, Attention to Detail, tenacious.

EDUCATION

Bechlor of Engineering
CMR Institute of Technolgy, Bangalore
Jul 2017 - Sep 2021
Courses – Computer science and Engineering

Diploma
BSF Institute of Technology *May 2014 - Jun 2017*
Courses – Computer science and Engineering

WORK EXPERIENCE

Software Developer
Data Template Infotech Private Limited - Bangalore
Mar 2022 - Jun 2023

- Developed and maintained web applications using technologies such as React with TypeScript, Node.js with JavaScript, and Microsoft Azure.
- Developed scalable server-side applications using Node.js, implementing RESTful APIs handling high traffic volumes.
- Participated in project estimation and defined time frames for deliverables.
- Refactored and optimized code to improve performance and maintainability.
- Utilized Microsoft Azure for scalable cloud solutions.
- Integrated Salesforce to enhance customer relationship management.
- Collaborated in an Agile environment to deliver high-quality, timely software solutions.

Software Development Engineer -1
Zongovita Tech Private Limited
Nov 2023 - Dec 2023

- Conducted comprehensive monitoring and inspection activities to ensure adherence to quality standards and regulations.
- Proficiently documented observations and findings.
- Implemented corrective measures to address non-compliance and improve processes.
- Enhanced operational efficiency through continuous assessment and optimization.

Associate Software Developer
Metaz Digital Private Limted *Sep 2024 - Present*

- Developed and maintained server-side applications using Node.js, ensuring high performance and scalability.
- Added new modules and enhanced existing functionality to meet evolving business requirements
- Leveraged JSON for data exchange between the frontend and backend, streamlining communication.
- Used Git for version control and collaboration within a team, following an Agile development methodology.
